The California Public Utilities Commission (CPUC) will hold public meetings to obtain community feedback regarding implementation of an area code overlay for the 310 region in place of an area code split.

Cingular, Nextel, SBC, Sprint, T-Mobile, Verizon, and Verizon Wireless have filed a joint petition with the Commission to modify Commission Decision 00-09-073, which authorizes the North American Numbering Plan Administration to split the 310 area code when the Commission determines that an area code change is necessary due to number exhaust. The joint carriers request that the Commission modify its decision and adopt a triggered overlay for the 310 area code instead of a split. The companies propose that the overlay triggers when only six prefixes remain in the 310 area code. Currently eight prefixes remain.

If an overlay plan is adopted, consumers in the 310 area code would need to dial "1" and then the 10 digits of the telephone number to make a local call. An overlay plan, however, would allow all business and residential consumers to retain their existing telephone numbers.

If special arrangements are needed, such as sign language or foreign language interpreters, please contact the CPUC Public Advisor's Office at 415-703-2074 or toll-free 1-866-849-8390 or TTY 415-703-5282 or 1-866-836-7825, or by email at public.advisor@cpuc.ca.gov at least three days in advance of the event.

4/20/05	A05-03-001	Pacific Gas and Electric Company, for adoption of policy and process for acquisition of incremental core gas storage in compliance with Ordering Paragraph 5 of Decision 04-09-022, and for adoption of a core reliability planning standard. for adoption of policy and process for acquisition of incremental core gas storage in compliance with Ordering Paragraph 5 of Decision 04-09-022, and for adoption of a core reliability planning standard.
---------	------------	---

Summary: On April 15, 2005, Eric Eisenman, Chief, Regulatory Relations of Pacific Gas and Electric Company, met with Larry Chaset, advisor to Cmmr. Grueneich. Also present was Dennis Gee, Manager of Gas Procurement for PG&E. Eisenman explained that PG&E is proposing a 1-day-in10-year peak day standard. Gee explained that implementation of this planning standard would result in Gas Procurement acquiring an incremental 100 MDth/day of withdrawal capacity, and at least an additional 1 Bcf of inventory. Gee stated that PG&E's proposed storage capacity acquisition process would provide an opportunity for all storage providers to compete in a Request for Proposal. Gee added that core customers should assume the financial risk of cuts to independent storage withdrawal capabilities. Eisenman noted that PG&E and the Office of Ratepayer Advocates have settled on the key principles underpinning the application.

	A05-01-018	Southern California Edison Company, for approval of rate design proposal for large customers.

Summary: On April 18, 2005, Keith McCrea, counsel for the California Manufacturers & Technology Association (CMTA), telephoned David Gamson, advisor to Cmmr. Brown. McCrea discussed the proposed decision (PD) issued in this proceeding. McCrea expressed CMTA's support for the PD's conclusion that default CPP tariffs should not be implemented for summer of 2005. However, McCrea indicated that with respect o possible future implementation of CPP tariffs, the PD was too prescriptive in terms of methodology and design criteria. McCrea also stated that the current schedule in Phase 2 of the PG&E general rate case should not be delayed.
